**JRS INDUSTRIAL TECHNOLOGY
TRAINING INSTITUTE**

About Us

JRS Industrial Technology Training Institute is a trade centre with international standards. Has we have realized the business potential of overseas employment in India and the technical services it always required. Our JRS ITTI was established in 10th October 2008. Today, we have dedicated ourselves in providing the essential services required by every employer and overseas recruiting agencies.

Centrally located in Trichy near the Airport, we are the one of the best equipped center of its kind in India. Versatile & Convenient, it is well planned with imported tools, machines, equipments and materials rarely found in any other testing centre. Excellent testing and interviewing facilities are offered here covering each and every trades.

JRS ITTI has a spacious and friendly atmosphere with technically proficient staff to ensure that our client can execute their manpower selection with ease and save their precious time. We also undertake the responsibility to trade test candidates referred by our clients and certify their standard of knowledge and skill in accordance with the client's specification and job requirements.

Our excellent services and sincere dealings have earned JRS ITTI the good will and confidence of not only the Indian Recruiting Agencies but also their Client Abroad. Indeed it's our business integrity that brings people and their resources together under one roof every day.
